Congratulations on completing this section of the Phishing Analysis domain! This knowledge review is designed to test what you have learned about tactics and techniques used by malicious actors to make phishing emails more effective. You will be able to re-take the quiz as many times as you like, but will need a score of 70% or above to pass. It is important that you feel confident answering these questions to ensure that you can complete tasks within the BTL1 exam and pass to become certified. If you get stuck, use the **Hint** feature! KNOWLEDGE REVIEW

[1/4] Marie receives a strange looking email that claimed to be from Amazon, asking her to click a button and reset her password. She hovered her mouse over the button, and the link didn't go to Amazon, and instead went to the address "hxtps://bit.ly/149ajf201". What techniques have been used in this phishing attack? Select ANY that apply.

☐ Impersonation☐ Business Email Compromise☐ Malicious Attachment☐ URL Shortening
