Phishing Analysis  
END OF SECTION REVIEW

Congratulations on completing this section of the Phishing Analysis domain! This knowledge review is designed to test what you have learned about retrieving important artifacts from suspicious emails. You will be able to re-take the quiz as many times as you like, but will need a score of 70% or above to pass. It is important that you feel confident answering these questions to ensure that you can complete tasks within the BTL1 exam and pass to become certified. If you get stuck, use the **Hint** feature!

Good luck!

## KNOWLEDGE REVIEW

[1/5] What is the main hash value that we want to collect from email attachments, considering older hashing algorithms that may cause hash collisions?

Hint

Check
